BARRETT RESOURCES CORPORATION August 1, 2000

State of Utah Department of Natural Resources Division of Oil, Gas, and Mining 1594 West North Temple, Suite 1210 Box 145801 Salt Lake City, Utah 84114-5801

Re: Oil and Gas Conservation General Rules R649-3-3 Exception to Location and Siting of Wells. Ute Tribal No. 5-31

Gentlemen:

Barrett Resources is proposing to drill a development well in the Brundage Canyon Field, Duchesne County, Utah. The well is located on lands within the Uintah and Ouray Ute Indian Reservation. A copy of the Federal Application for Permit to Drill (APD) is attached for your review. This APD has been submitted to the Bureau of Land Management (BLM) in Vernal and the Bureau of Indian Affairs (BIA) at Ft. Duchesne.

As shown on the attached staking plat, the proposed location for the Ute Tribal No. 5-31 falls outside of the allowed standard well spacing (R649-3-2). Barrett is requesting an exception to the spacing requirement per regulation R649-3-3. Barrett was unable to locate the proposed well within the allowed spacing "windows" in either the NW/4 NW/4 or SW/4 NW/4 due to topographic constraints. The staked footages represent the closest accessible location to either of the spacing "windows".

In accordance with R649-3-3, Barrett is providing a copy of the staking plat showing the proposed location in relation to the allowed spacing "window" and all tracts contacted by a circle with a radius of 460'. A second plat is also attached showing the actual or recently proposed location for all direct or diagonal offsetting wells. As to the 460' radius circle, Barrett is also the owner of the adjacent NW/4 NW/4 of Section 31.

Barrett is requesting approval of this excepted location as proposed. If additional information is required, please contact Jeff Carlson at (303) 606-4063.

Debbie L. Wisener

ONSHORE ORDER NO. 1

MULTI POINT SURFACE USE & OPERATIONS PLAN

1 Existing Roads

To reach the Barrett Resources well, Ute Tribal 5-31 location, in Section 31-T5S-R4W:

Start in Myton, Utah. Proceed west on US Highway 40, 8.8 miles to the Antelope Creek/Sowers Canyon Road at the Bridgeland turnoff. Turn south and proceed 10.1 miles to the Brundage Canyon Road. Turn south on the Brundage Canyon road and proceed southwest 4.9 miles to the Ute Tribal 7-25 access road. Turn south and proceed 1.8 miles to the Ute Tribal 13-25 access road. Turn east and proceed 1.4 miles to loc.

The existing oilfield service road may need some surface material to prevent or repair holes in the road due to heavy truck traffic during the drilling and completion operation. If repairs are made the operator will secure material from private sources.

Please see the attached map for additional details.

2 Planned Access Road

See Topographic Map "B" for the location of the proposed access road.

3 Location of Existing Wells

See Topographic Map "C" for the location of existing wells within a 1 mile radius.

4 Location of Tank Batteries, Production Facilities and production Gathering and Service Lines

PLEASE REFER TO BARRETT RESOURCES CORPORATION STANDARD OPERATING PROCEDURE (SOP).

5 Location and Type of Water Supply

Water for the well will be pumped from Barrett's water source well located in Sec. 23, T5S, R5W. Water for completion will be hauled by truck from Petroghyph Operating's Antelope Creek facility. A water use agreement is also in place with the Ute Tribe.

All lease and/or unit operations will be conducted in such a manner that full compliance is made with all applicable laws, regulations and onshore oil and gas orders. The operator is fully responsible for the actions of its subcontractors. A copy of these conditions will be furnished to the field representative to ensure compliance.

The drilling permit will be valid for a period of one year from the date of approval. After permit termination, a new application will be filed for approval for any future operations.

B) Certification:

I hereby certify that I, or persons under my direct supervision, have inspected the proposed drillsite and access route; that I am familiar with the conditions which presently exist; that the statements made in this plan are, to the best of my knowledge and belief, true and correct; and that the work associated with the operations proposed herein will be performed by Barrett Resources Corporation and its contractors and subcontractors in conformity with this plan and the terms and conditions under which it is approved. This statement is subject to the provisions of 18 U.S.C. 1001 for the filing of a false statement.

Utah Project # U-00-AY-0244(i)

July 3, 2000

Introduction

Independent Archaeologist (AIA) was contacted by representative of Barrett Resources Corporation, to conduct a cultural resources investigation of the proposed Ute Tribal well #5-31 (1410 FNL, 585 FWL), its access and pipeline. The location of the project area is in the SW/NW 1/4 of Section 31, T5S, R4W, Duchesne County, Utah (Figure 1). The proposed access and pipeline parallel each other and trend 7920 feet (2414.6 m) east to the proposed well pad. The proposed access and pipeline begin at a existing oil and gas field road and pipeline in SE/SE/NE 1/4 of Section 35, T5S R5W and trend west-east through the C of Section 36, T5S R5W to Section 31 of T5S R4W and the proposed well location (Figure 1). The land is administered by Uintah-Ouray Ute tribe, Fort Duchesne, Utah. A total of 46.36 acres was surveyed. Fieldwork was authorized through an access permit issued by the Energy and Minerals Resource Division of the Uintah-Ouray Ute The field work was conducted on June 20 and 21, 2000 by AIA archaeologist James Truesdale, and accompanied by Lonnie Nephi (technician, Energy and Minerals Resource Division, Uintah-Ouray Ute tribe). All the field notes and maps are located in the AIA office in Laramie, Wyoming.

File Search

A file search was conducted at the Office by the Utah State Historical Society, Antiquities Section, Records Division on May 30, 2000. No projects and/or cultural resources have been previously recorded in or adjacent to the project area.

Environment

Physiographically, the project is located in the Uinta Basin, approximately 25 miles southwest of Myton, Utah. The Uinta Basin structurally the lowest part of the Colorado Plateau geographical province (Thornbury 1965:425). The terrain is characterized as having steep ridges and/or buttes of Uintah Formation sandstones and clays dissected by seasonal drainages and washes with wide flat alluvial plains. Portions of the desert hardpan and bedrock in the Sowers Canyon/Brundage Canyon area are covered with aeolian sand which may reach a depth of over 1 to 2 meters in areas. The project area is southeast of Sowers Canyon which is the nearest permanent drainage. This drainage trends northeast approximately 8 miles to Antelope Creek and then 10 miles north to the Duchesne River.

Vegetation in the project area is characteristic of a Pinon/Juniper community. Species observed in the project area Pinyon pine Edulis), (Pinus juniper Osteosperma), curl-leaf mountain mahogany (Cercocarpus ledifolius), shadscale (Atriplex confertifolia), sand sage, filifolia), saltbush (Atriplex nuttallii), rabbitbrush (Chrysothamnus viscidiflorus), winterfat (<u>Eurotia</u> lanata), greasewood (Sarcobatus baileyi), Indian ricegrass (Oryzopsis

Figure 1. Location of proposed Barrett Ute Tribal #5-31 well, its access and flowline on USGS 7.5'/1964 quadrangle maps Duchesne SW, Utah.

hymenoides), desert needlegrass (<u>Stipa speciosa</u>), wild buckwheat, <u>Eriogonum ovvalifolium</u>), silky lupine (<u>Lupinus sericeus</u>), desert globemallow (<u>Bromus tectorum</u>), sky rocket (<u>Gilia aggregata</u>), peppergrass (<u>Lepidium perfoliatum</u>), Russian thistle (<u>Salsola kali</u>), and prickly pear cactus (<u>Opuntia spp.</u>).

The immediate proposed Barrett Resources Corp. Ute Tribal #5-31 well situated on the top and northwest slope of a southwest to northeast trending narrow ridge. Vegetation on the well location is dominated Pinyon/juniper which has a small understory of low sagebrush, bunchgrasses and prickly pear cactus. In addition, stands of curl leaf mountain mahogany can be found scattered along the ridge's steep slopes. Sediments on the proposed well location as well as along the proposed access and flowline are shallow (5 cm) silty acclian sand mixed with eroding Uinta formation sandstones, clay and shales. The ridge surface is dominated by residual angular pieces of Uinta formation sandstone that exhibit a extremely dark desert varnish (patination). The proposed access and pipeline parallel each other and cross several small ridges and ephemeral drainages and then continues along the narrow ridge top and it's northwestern slope 7920 feet (2414.63 m) to the proposed well pad. The proposed well location is located at an elevation of 7000 feet (2134.1 m) AMSL.

Field Methods

A total of 10 acres was surveyed around the centerstake of the proposed well location to allow for relocation of the pad if necessary. The survey was accomplished by walking transects spaced no more than 15 and 20 meters apart. The well access and pipeline parallel each other. Each of these survey corridors is 7920 feet (2414.6 m) long and 100 feet (30.4 m) wide, 18.18 acres. A total of 36.36 linear acres was surveyed. Areas of subsurface exposure (ant hills, blowouts, eroding slopes and cutbanks) were examined with special care in order to help assess the potential for buried cultural deposits.

Results

A total of 46.36 acres were surveyed for cultural resources within and around the proposed Barrett Resources Corp. Ute Tribal #5-31. No cultural resources were recorded during the survey.

Recommendations

A total of 46.36 acres were surveyed for cultural resources within and around the proposed Barrett Resources Corp. Ute Tribal #5-31. No cultural resources were recorded during the survey. The possibility of buried and intact cultural materials located on the proposed well pad or along its, access and pipeline is low. Therefore, no additional archaeological work is necessary and clearance is recommended for the construction of the proposed Ute Tribal #5-31 well pad, its access and flowline.

APPLICATION FOR GRANT OF CORRIDOR RIGHT-OF-WAY

BARRETT RESOURCES CORPORATION. having a resident or principal place of business at 30 West 425 South (330-5), Roosevelt, Utah, 84066, hereby files an application with the Bureau of Indian Affairs, pursuant to the terms and provisions of the Act of February 5, 1948 (62 Stat. 17; 25 U.S.C. 323), and to the regulations of the Department of the Interior contained in Title 25, Code of Federal Regulations, Part 169, for the grant of a Right-of-Way for the following purposes and reasons:

To construct a Drill Site for the Ute Tribal #5-31

Across the following described Indian Lands NE 1/4 SE 1/4 OF SECTION 35, N ½ SW 1/4, NW 1/4 SE 1/4 & S ½

NE 1/4 OF SECTION 36, T5S, R5W, U.S.B.&M. & THE W ½ NW 1/4 OF SECTION 31, T5S, R4W, U.S.B.&M.

Drill Site = 1.892 Ac.

Corridor R-O-W = 4.856 Ac. (Access Road & Pipeline)

Total Acreage = 6.748 Acres

Said Right-of-Way to be approximately 7,050.38 feet in length, 30 feet in width, and 4.856 Acres, and more particularly described and shown on the map of definite location to be attached and made a part hereof.

The applicant understands and hereby expressly agrees to the following stipulations:

- (a) To construct and maintain the Right-of-Way in a workmanlike manner.
- (b) To pay promptly all damages and compensation, in addition to the deposit made pursuant to 169.4 determined by the Secretary to be due the landowners and authorized users and occupants of the land on account of the survey, granting, construction and maintenance of the Right-of-Way.
- (c) To indemnify the landowners and authorized users and occupants against any liability for loss of life, personal injury and property damage arising from the construction, maintenance, occupancy or use of the lands by the applicant, his employees, contractors and their employees or subcontractors and their employees.
- (d) To restore the lands as nearly as may be possible to their original condition upon the completion of the construction to the extent compatible with the purpose for which the Right-of-Way was granted.
- (e) To clear and keep clear the lands within the Right-of-Way to the extent compatible with the purpose of the Right-of-Way; and to dispose of all vegetative and other material cut, uprooted, or otherwise accumulated during the construction and maintenance of the project.

- (f) To take soil and resource conservation and protection measures, including weed control, on the land covered by the Right-of-Way.
- (g) To do everything reasonable within its power to prevent and suppress fires on or near the lands to be occupied under the Right-of-Way.
- (h) To build and repair such roads, fences, and trails as may be destroyed or injured by construction work and to build and maintain necessary and suitable crossings for all roads and trails that intersect the works constructed, maintained, or operated under the Right-of-Way.
- (I) That upon revocation or termination of the Right-of-Way, the applicant shall, so far as is reasonably possible, restore the land to its original condition.
- (j) To at all times keep the Secretary informed of its address, and in case of corporations of the address of its principal officers.
- (k) That the applicant will not interfere with the use of the lands by or under the authority of the landowners for any purpose not inconsistent with the primary purpose for which the Right-of-Way is granted.

IN WITNESS THEREOF, BARRETT RESOURCES CORPORATION. has caused this instrument

be executed this

Re:

Ute Tribal 5-31 Well, 1410' FNL, 585' FWL, SW NW, Sec. 31, T. 5 South, R. 4 West,

Duchesne County, Utah

Gentlemen:

Pursuant to the provisions and requirements of Utah Code Ann.§ 40-6-1 et seq., Utah Administrative Code R649-3-1 et seq., and the attached Conditions of Approval, approval to drill the referenced well is granted.

Appropriate information has been submitted to DOGM and administrative approval of the requested exception location is hereby granted.

This approval shall expire one year from the above date unless substantial and continuous operation is underway, or a request for extension is made prior to the expiration date. The API identification number assigned to this well is 43-013-32190.

Sincerely,

Jøhn R. Baza

Associate Director

Well Name & Number		Ute Tribal 5-31				
API Number:		43-013-32190				
Lease:		14-20-H62-4659				
Location: SW NW	Sec. 31	T. 5 South	R. 4 West			

Conditions of Approval

1. General

Compliance with the requirements of Utah Admin. R. 649-1 et seq., the Oil and Gas Conservation General Rules, and the applicable terms and provisions of the approved Application for permit to drill.

2. Notification Requirements

Notify the Division within 24 hours of spudding the well.

Contact Carol Daniels at (801) 538-5284.

Notify the Division prior to commencing operations to plug and abandon the well.

Contact Dan Jarvis at (801) 538-5338

Contact Robert Krueger at (801) 538-5274.

3. Reporting Requirements

All required reports, forms and submittals will be promptly filed with the Division, including but not limited to the Entity Action Form (Form 6), Report of Water Encountered During Drilling (Form 7), Weekly Progress Reports for drilling and completion operations, and Sundry Notices and Reports on Wells requesting approval of change of plans or other operational actions.

4. State approval of this well does not supersede the required federal approval, which must be obtained prior to drilling.

Form 3160-3 (November 1983) (formerly 9-331C)

DIVIDION OF OIL, GAU AND MINING

For more specific details on notification requirements, please check the Conditions of Approval for Notice to Drill and Surface Use Program.

COAs Page 2 of 5 Well No.: Ute Tribal 5-31

CONDITIONS OF APPROVAL FOR NOTICE TO DRILL

Approval of this application does not warrant or certify that the applicant holds legal or equitable title to those rights in the subject lease which would entitle the applicant to conduct operations thereon.

Be aware fire restrictions may be in effect when location is being constructed and/or when well is being drilled. Contact the appropriate Surface Management Agency for information.

A. DRILLING PROGRAM

1. Casing Program and Auxiliary Equipment

As a minimum, the usable water and oil shale resources shall be isolated and/or protected by having a cement top for the production casing at least 200 ft. above the base of the usable water zone, identified at 1,247 ft.

2. Other Information

In the event after-hours approvals are necessary, please contact one of the following individuals:

EPA'S LIST OF NONEXEMPT EXPLORATION AND PRODUCTION WASTES

While the following wastes are nonexempt, they are not necessarily hazardous.

Unused fracturing fluids or acids

Gas plant cooling tower cleaning wastes

Painting wastes

Oil and gas service company wastes, such as empty drums, drum rinsate, vacuum truck rinsate, sandblast media, painting wastes, spend solvents, spilled chemicals, and waste acids

Vacuum truck and drum rinsate from trucks and drums, transporting or containing nonexempt waste

Refinery wastes

Liquid and solid wastes generated by crude oil and tank bottom reclaimers

Used equipment lubrication oils

Waste compressor oil, filters, and blowdown

Used hydraulic fluids

Waste solvents

Waste in transportation pipeline-related pits

Caustic or acid cleaners

Boiler cleaning wastes

Boiler refractory bricks

Incinerator ash

Laboratory wastes

Sanitary wastes

Pesticide wastes

Radioactive tracer wastes

Drums, insulation and miscellaneous solids.

COAs Page 4 of 5 Well No.: Ute Tribal 5-31

SURFACE USE PROGRAM CONDITIONS OF APPROVAL (COAs)

Thirty foot corridor rights-of-way shall be granted for the pipeline and new access road. As each pipeline is constructed, Barrett Resources will designate whether it is an oil flowline, a gas flowline, or a water injection line and provide plats to the Ute Tribe Energy and Minerals Department.

All ground maintenance and repair will be confined to a 30-foot right-of-way.

All wood source material will be stacked or piled in a manner so that Ute Tribal entities designated by the Ute Energy & Minerals Department can pick it up.

Barrett Resources will assure the Ute Tribe that any/all contractors and subcontractors have acquired a 2000 Tribal Business License and have "Year 2000 Access Permits" prior to construction. Contractors and subcontractors will have these permits in vehicles at all times.

All Barrett Employees and/or authorized personnel (subcontractors) in the field will have approved applicable APDs and/or ROW permits/authorizations on their person(s) during all phases of construction.

The Ute Tribe Energy & Mineral Department is to be notified in writing 48 hours in advance of any construction activity. The Ute Tribal office days are Monday through Thursday. A Tribal Technician is to routinely monitor construction. For all monitoring that is to exceed Tribal Technician regular working hours, Barrett Resources shall make arrangements with the Ute Energy & Minerals Department.

For any deviations of submitted APDs and ROW applications, Barrett will notify the Ute Tribe and Bureau of Indian Affairs in writing and will receive written authorization of such changes. Without authorization, Barrett Resources understands they will be subject to fines and penalties.

Barrett Resources will implement the "Safety and Emergency Plan". The Barrett Resources Safety Director will ensure its compliance.

All vehicular traffic, personnel movement, construction, and restoration activities shall be confined to the areas examined and approved, and to the existing roadways and/or evaluated access routes.

All personnel shall refrain from collecting artifacts, any paleontological fossils, and from disturbing any significant cultural resources in the area.

The personnel from the Ute Tribe Energy & Mineral Department shall be consulted if cultural remains (including paleontology fossils) from subsurface deposits are exposed or identified during construction. All construction will cease. Prior to commencing constructing in the area where cultural resources are exposed, the operator must obtain authorization from the BIA and the Ute Tribal Department of Cultural Rights and Protection.

OIL, CAS AND MINING

COAs Page 5 of 5 Well No.: Ute Tribal 5-31

Upon completion of construction of the rights-of-way, Barrett will notify the Ute Tribe Energy & Minerals Resources Department. This will be done so that a Tribal Technician can verify Affidavit of Completions.

Before the site is abandoned, the company will be required to restore the well site and ROWs to near their original state. The disturbed areas will be reseeded with desirable perennial vegetation.

Noxious weeds will be controlled on the well site and rights-of-way. If noxious weeds spread from the project area onto adjoining land, the company will also be responsible for their control.

Soil erosion will be mitigated by reseeding all disturbed areas.

Reserve pits will be lined with impervious synthetic liners. Prior to backfilling the reserve pit, all fluids will be pumped from the pit into trucks and hauled to approved disposal sites. When the pits are backfilled, the surplus oil and mud, etc., will be buried a minimum depth of 3.0 feet below the surface of the soil.

A closed production system will be used. Production fluids will be contained in leak proof tanks. All production fluids will be disposed of at approved disposal sites. Production water, oil, and other by-products will not be applied to roads or well pads for the control of dust or weeds. The indiscriminate dumping of production fluids and other oil field by-products on roads, wellsites or other areas will not be allowed.

A 30-foot wide corridor right-of-way will be used for the access road and pipeline corridor. The constructed travel width shall be limited to 18 feet, except it may be wider where sharp curves or intersections are required.

Surface pipelines will be constructed to lay on the soil surface, and the ROW for the pipeline will not be bladed or cleared of vegetation without site specific authorization from BIA and Ute Tribe Energy & Minerals.

Where surface pipelines do not parallel roads but cross country between stations. The line shall either be welded in place at a welding station located at the wellsite or on roads near the flowline right-of-way and then dragged into place with a suitable piece of equipment so it will not destroy the natural vegetation. If the flowline doesn't follow existing and APD proposed new access roads then traffic shall be restricted along pipeline ROWs so that they will not be used as an access road.

Buried flowlines shall be a minimum of three feet below the surface. After the construction of the pipeline is completed the disturbed area of the ROW shall be contoured to blend into the natural landscape, and it shall be reseeded with desirable vegetation. Between September 15 and November 1 of the year following pipeline construction of the buried line all disturbed areas shall be reseeded with perennial vegetation according to BIA or to Ute Tribe specifications.

Barrett Resources employees, representatives, and subcontractors shall not carry firearms on their person or in their vehicles while working on the Uintah and Ouray Indian Reservation.

Oil and Gas

Name Change Recognized

Acceptable evidence has been received in this office concerning the name change of <u>Barrett Resources Corporation</u> into <u>Williams Production RMT Company</u> with <u>Williams Production RMT Company</u> being the surviving entity.

For our purposes, the name change is recognized effective August 2, 2001.

The oil and gas lease files identified on the enclosed exhibit have been noted as to the name change. The exhibit was compiled from a list of leases obtained from our computer program. We have not abstracted the lease files to determine if the entities affected by this name change hold an interest in the leases identified nor have we attempted to identify leases where the entities are the operator on the ground maintaining no vested recorded title or operating rights interests. We will be notifying the Minerals Management Service and all applicable Bureau of Land Management offices of the change by a copy of this notice. If additional documentation for changes of operator are required by our Field Offices, you will be contacted by them.

If you identify additional leases in which the entities maintain an interest, please contact this office and we will appropriately document those files with a copy of this Notice.

Due to the name change, the name of the principal/obligor on the bond is required to be changed from <u>Barrett Resources Corporation</u> to <u>Williams Production RMT Company</u>. You may accomplish this either by consent of surety rider on the original bond or a rider to the original bond. The bonds are held in New Mexico.

Williams Production RMT Company Attn: Fritts Rosenberger 1515 Arapahoe St., T3-1000 Denver, CO 80202

Dear Mr. Rosenberger;

We are in receipt of the corporate documentation for the merger of Barrett Resources Corporation with and into Williams Production RMT Company.

All documents appear to be in order, and the approval is hereby authorized to change all records, including change of operator of certain oil and gas wells, Rights-of-Way, Communitization Agreements, Oil and Gas Leases; and Exploration and Development Agreements from Barrett Resources Corporation with and into Williams Production RMT Company.

Approval of this name change is the date of this letter, but effective on August 2, 2001. If you have any questions, please do not hesitate to contact this office.

Respectfully.

CERTIFICATE OF MERGER OF BARRETT RESOURCES CORPORATION INTO RESOURCES ACQUISITION CORP.

Pursuant to Section 251 of the General Corporation Law of the State of Delaware

Resources Acquisition Corp., a Delaware corporation ("Acquisition"), pursuant to Section 251 of the General Corporation Law of the State of Delawers (the "DGCL"), hereby certifies as follows:

FIRST; The name and state of incorporation of each of the countituent corporations to the merger are as follows:

Barrett Resources Corporation

Delawara

Resources Acquisition Corp.

Delaware

SECOND: An Agreement and Plan of Merger (the "Merger Agreemont"), dated as of May 7, 2001, by and among The Williams Companies, Inc., Acquisition and Barrett Resources Corporation ("Barrett") has been approved, adopted, certified, executed and acknowledged by each of the constituent corporations in accordance with Section 251 of the DGCL.

THIRD: Acquisition shall be the corporation surviving the merger (the "Surviving Corporation").

FOURTH: The Certificate of Incorporation of Acquisition shall be the Certificate of Incorporation of the Surviving Corporation until thereafter changed or amended as provided therein or by applicable law; provided, however, that the following changes to the Certificate of Incorporation of Acquisition shall be effected as a result of the merger:

08/02/01

NO. 184 DES

1. Article FIRST shall be amended and restated to mad as follows:

"The name of the corporation is Williams Production RMT Company."; and

2. Article SIXTH, paragraph 4, shall be amended and restated to read so follows:

"No director shall be personally liable to the Corporation or any of its stockholders for monetary damages for breach of fiduciary duty as a director, except for liability (i) for any breach of the director's duty of loyalty to the Corporation or its stockholders, (ii) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, (iii) pursuant to Section 174 of the GCL or (iv) for any transaction from which the director derived an improper personal benefit. If the GCL is amended to suthorize corporate action forther eliminating or limiting the personal liability of directors, then the liability of directors of the Corporation shall be eliminated or limited to the fullest extent permitted by the GCL, as so amended. Any repeal or modification of this Article SIXTH by the stockholders of the Corporation shall not adversely affect any right or protection of a director of the Corporation existing at the time of such repeal or modification with respect to acts or omissions occurring prior to such repeal or modification."

3. The following paragraph shall be added to Article Sixth as paragraph 6 thereto:

"The Corporation shall fully honor and abide by the provisions set forth in Section 7.9 of the Agreement and Plan of Merger dated as of May 7, 2001 (the "Merger Agreement") by and among the The Williams Companies, Inc., the Corporation and Barrett Resources Corporation. Any repeal or modification of this paragraph 6 of this Article SIXTH by the stockholders of the Corporation shall not adversely affect any rights or protections afforded to the Indomnified Persons (as defined in the Merger Agreement) pursuant to this paragraph and Section 7.9 of the Merger Agreement."

FIFTH: The executed Merger Agreement is on file at the office of the Surviving Corporation, 1515 Arapahoe Street, Tower 3 Suite 1000, Denver, Colorado 80202.

Notice of Change of Operator from Berry Petroleum Company, LLC to Linn Operating, Inc., effective June 1, 2014. On December 16, 2013, Berry Petroleum Company became an indirect subsidiary of Linn Energy, LLC. As a result, Berry Petroleum Company converted into a limited liability company named, "Berry Petroleum Company, LLC". On March 5, 2014, Berry Petroleum Company, LLC authorized and empowered Linn Operating, Inc. to act as operator on its behalf. I have attached a copy of the original declaration amending the name change along with a copy of the agency agreement and power of attorney for the operator change.
